ABOUT ME

Passionate MERN Stack Developer and Software Engineering student with hands-on experience building responsive, scalable, and user-focused web applications. Skilled in React.js, Next.js, Node.js, Express.js, MongoDB, and TypeScript, with a strong focus on clean code and modern development practices. Experienced in developing full-stack projects, REST APIs, authentication systems, and deploying applications using GitHub, Vercel, and Render. Eager to contribute, learn from experienced teams, and build impactful digital solutions in a professional environment.

SKILLS

- HTML5
- CSS3
- JavaScript (ES6+)
- TypeScript
- Bootstrap 5
- Tailwind CSS
- React.js
- Next.js
- Node.js
- Express.js
- MongoDB
- Supabase
- PostgreSQL
- REST APIs
- JWT Authentication
- Landing page
- Responsive Design

TOOLS & EDITORS

- Visual Studio Code
- Cursor
- Antigravity
- Postman
- Git
- GitHub
- npm
- Vercel
- Render

EDUCATION

BS Software Engineering (2nd semester)
Virtual University of Pakistan

PROFESSIONAL TRAINING

AI-DRIVEN FULL STACK WEB & APP DEVELOPMENT	(ENROLLED)
<i>Saylani Mass IT Training (SMIT)</i>	
FULL STACK WEB DEVELOPMENT	(COMPLETED)
<i>Corvit Systems</i>	
WEB DESIGN CRASH COURSE	(COMPLETED)
<i>Saylani Mass IT Training (SMIT)</i>	

PROJECTS

3D Scrolling Landing Page

Tech Stack: Next.js, TypeScript, Tailwind CSS, Framer motion

- Developed an interactive 3D scrolling landing page with frame-by-frame image sequence animation.
- Optimized image loading, lazy loading, and rendering for smooth scrolling and improved performance.
- Built a responsive, immersive user experience with modern animations and clean UI.
- Deployed the application with a focus on performance, scalability, and maintainable code.

Live Demo : <https://sony-wh-1000-xm-6-one.vercel.app>

Github: <https://github.com/itx-Saqib/Sony-WH-1000XM6>

MediFlow – Pharmacy Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT

- Developed a full-stack pharmacy management system to streamline medicine inventory, billing, and customer management.
- Implemented secure JWT authentication with role-based access control for owners and staff.
- Built features including inventory tracking, sales management, invoice generation, customer records, and analytics dashboard.
- Designed responsive user interfaces, integrated REST APIs, and deployed the application using Vercel and Render.

Live Demo : <https://medi-flow-ecru.vercel.app>

Github: <https://github.com/itx-Saqib/MediFlow>

VYBE AI – AI-Powered Application (In Progress)

Tech Stack: Next.js, TypeScript, React.js, Node.js, Express.js, MongoDB, AI APIs

- Developing an AI-powered application focused on delivering intelligent and interactive user experiences.
- Building scalable frontend and backend architecture using modern full-stack technologies.
- Integrating AI capabilities and API-based services to enhance application functionality.
- Implementing responsive UI, secure backend services, and optimized user workflows.

Github: https://github.com/itx-Saqib/VYBE_AI

Personal Portfolio Website

Tech Stack: React.js, JavaScript, Tailwind CSS, Framer Motion

- Designed and developed a responsive personal portfolio website to showcase skills, projects, and professional profile.
- Implemented modern UI design with smooth animations and interactive user experience.
- Optimized the website for responsiveness, performance, and clean code structure.
- Deployed the portfolio using Vercel.
